Intellectual Property ■ Patent Prosecution, Counseling & Review

Alison Davis is a senior associate with the Intellectual Property – Patent Group. She has extensive experience drafting and prosecuting patent applications for various industries and technologies, including aerospace, gas turbine engines, drive train technology, hybrid electric technology, aircraft control laws, composites, additive manufacturing, electro-machining, and software.

Before joining the firm, she worked as a patent attorney for a Fortune 500 company. Her in-house experience focused on invention harvesting, patentability and freedom-to-operate analysis, and patent marking for rotorcraft technologies.

Alison earned her J.D. at Texas A&M University while serving on the *Texas A&M Law Review*. She received her B.S. in computer science from Texas Tech University.

Representative Experience

- Patent counsel to a global leader in gas detection, fall protection, robotic automation systems, sensors, mobile computers, barcode scanners, printers, and material handling automation.
- Patent counsel to a Fortune 500 fintech and insurtech services company that develops artificial intelligence and other software and hardware solutions that support, protect, and connect major consumer purchases.
- Patent counsel to a leading global precision trigger and armament manufacturer.

Education

- Texas A&M University (J.D., 2017)
- Texas Tech University (M.B.A., 2006)
- Texas Tech University (B.S., 2004)
