Related Services

Intellectual Property ■ Intellectual Property Litigation

Leveraging his background in electrical engineering, computer architecture, and embedded systems, Jason is a trusted resource for his clients with various IP litigation needs.

Jason Spotts focuses his practice on intellectual property litigation and has experience with a variety of intellectual property related matters and litigations.

Jason represents clients across a range of industries, including media streaming, video surveillance and security, and telecommunications. He advises on all aspects of patent litigation and has experience in International Trade Commission (ITC) litigation, federal district court litigations and post-grant proceedings, including petitions for inter partes review at the U.S. Patent Office.

Representative Experience

- Represented a large smartphone manufacturer against patent infringement claims related to location tracking and graphical user interfaces in the Eastern District of Texas.
- Represented a video surveillance company asserting infringement of patents related to facial-recognition technology in a Section 337 proceeding before the International Trade Commission.
- Represented a large multimedia company in a multiform patent dispute related to adaptive bitrate streaming.

Education

- Southern Methodist University (J.D., 2021)
- University of Texas at Austin (B.S., 2014)

Admitted to Practice
