Intellectual Property ■ Patent Prosecution, Counseling & Review

Kwok Lee is a registered patent agent with experience drafting and prosecuting patent applications primarily in the fields of artificial intelligence, computer architecture, computer networking, e-commerce, internet search and advertising, operating systems, social networking, telecommunications, and virtual/augmented reality. He also has experience engaging in patent examiner interviews, analyzing validity and potential infringement of patents, evaluating patent portfolio assets and conducting prior art searches for potential new patent applications or infringement analysis.

Before becoming a patent agent, Kwok was a patent examiner at the U.S. Patent and Trademark Office, where he reviewed patent applications related to operating systems, process and thread scheduling, priority scheduling, and multitasking. Kwok received his B.E. in computer engineering from Stony Brook University.

Representative Experience

- Drafted and prosecuted patent applications for multiple technology corporations relating to artificial intelligence, cloud computing, e-commerce, machine learning, online advertising, search engine technology, and consumer electronics.
- Drafted and prosecuted patent applications related to health care technology including patient monitoring and fall detection/prevention.
- Drafted and prosecuted patent applications for a multinational conglomerate corporation relating to a variety of technical fields including gas detection, sensors, radio frequency identification (RFID), networking, and automation technologies.

Education

- State University of New York at Stony Brook (B.E., 2007)

Admitted to Practice

- U.S. Patent and Trademark Office
