---

Rahjima Francia is a registered patent agent with experience filing and prosecuting patent applications before the U.S. Patent and Trademark Office and analyzing patentability. Rahjima's experience includes the preparation and prosecution of patent applications in the fields of wireless communication hardware and software, mobile applications, Internet of Things, computing systems and software, interactive displays, distributed systems, and business methods.

Before joining Alston & Bird, Rahjima worked as a software engineer in the financial industry. She has experience in several phases of the software development life cycle, project management, tiered development, and data-driven decision making. Rahjima's development experience spans process areas (data, logic layer, user interface, testing, and design) of a multitier architecture.
